The wonders worked by Dr. Williams' Pink Pills are numerous in this province as well as elsewhere. In former issues our readers have seen accounts of cures effected in Prince Edward Island by this famous remedy, and today we call attention to an account of the remarkable cure of a case of nervous weakness—that of Mr. Wm. Coughlan, of Darnley. It will prove interesting to all, and especially to those who are afflicted as was Mr. Coughlan, who is now restored to complete health, through the good effects of Pink Pills.

The recital to be given in Market Hall, Summerside, on the evening of January 8th, prox., by Miss Isabel Macmillan, and of which full particulars will be given in due time, promises to be immense. Miss Macmillan will have the assistance of such distinguished musical artists as Prof. Earle and Miss Earle, and Miss Edna Sinclair, while, along the line of elocution, her pupils, judging from their success in Charlottetown, will fully come up to all expectations that may be entertained of them. There is certainly a delightful entertainment in store for our people on the above date. Look out for programme in another issue.

Howe, who visited the Island last week. Messrs. Miller & Co. are in a position to handle consignments of smelts and other fish to the very best advantage, placing them where they bring good prices, and making prompt returns. They are an old and thoroughly reliable concern, and have very extensive business relations in the United States and Canada, and they are popular with their patrons. Those having shipments of smelts to send forward, can make no mistake by placing their consignments with Messrs. Miller & Co.
